

**Year 1 and 2 – Spring 2**  
**Saving Our Environment Homework**

During this half term, year 1 and 2 will learn about the five oceans and how plastics are harming the oceans.

Our key topic question is:

**‘What do I know about oceans?’**

At Howitt Primary Community School, we encourage our children to become independent learners who have the enthusiasm to learn and challenge themselves. There are several different homework projects that your child may choose from.

**Homework Ideas:**

1. Create a poster showing rubbish and plastic in the ocean.
2. Using recycled materials, create a 3D model of the ocean with pollution in it.
3. Create a moving picture showing animals in the ocean and the rubbish that ends up there.

Please hand in all homework projects by **Monday 23rd March**. All pupils who return their homework will receive 5 merits.

We look forward to seeing your homework projects.  
Miss Beard, Miss Lockley, Mrs Clarke and Mrs Payler.
