

Dear parents/carers

This term the children in reception will be learning all about our world. They will learn about different types of animals and where they live.

We would like you to help your child make an animal to bring into school to put on display during the open afternoon later in the term. We ask that you bring them in by Friday 10<sup>th</sup> July.

You could use boxes, tubes, playdough or paper plates to make your animal or you may have an even better idea. A great place for ideas is pinterest.

Your child will receive a sticker on their star chart when they return their animal to school. Let your imagination run wild and have fun!!

Many Thanks

Early Years Team
